

The DryZone protects gear in the most difficult situations — while traveling by canoe, kayak or dinghy; when trekking through dust storms in the desert; while battling snow storms in the Arctic.

DryZone™ 200 & DryZone™ 100

DryZone is the world's first totally waterproof, soft-sided camera backpack. Even fully loaded, it floats so your gear is always protected. The inner drypod with patented, waterproof TIZIP™ zipper provides 100% watertight protection. It's like a drysuit for your equipment. When less protection is needed, leave the TIZIP™ open and fasten just the inner zipper and top clip for easier access. The heavy-duty, padded camera compartment inside is fully customizable while the outer shell comes complete with a technical backpack harness. Also included: ergonomic lumbar support; fully adjustable CollarCut™ shoulder straps; tuck-away tripod holder; self-draining mesh pockets; drain hole; rubber handle; and attachment loops for SlipLock™ accessories. DryZone packs are comfortable to wear and give you total peace of mind in extreme environments.

DryZone™ 200 Capacity:

- pro DSLR; 4-5 lenses (up to a 300mm f/2.8, with hood reversed); flash and accessories; or
- compact medium format system (like the Mamiya® 645); or
- small field camera system; or
- professional video system

Size (Interior): 12W x 6D x 17H in. / 30.5 x 15 x 43 cm

Size (Exterior): 14.5W x 11.5D x 19H in. / 37 x 29 x 48.5 cm

Outer fabric (Waterproof Drypod): waterproof plastic-coated nylon

Weight: 6.9 lbs / 3.15 kg

Outer Fabric (Backpack): water-resistant 600D TXP™ and 2000D ballistic nylon

DryZone™ 100 Capacity:

- DSLR and 3-5 lenses (80-200mm f/2.8); or
- compact medium format system

Size (Interior): 11W x 5.5D x 15H in. / 28 x 14 x 38 cm

Size (Exterior): 12.5W x 8D x 17.5H in. / 32 x 20.5 x 44.5 cm

Outer fabric (Waterproof Drypod): waterproof plastic-coated nylon

Weight: 5.2 lbs / 2.36 kg

Outer Fabric (Backpack): water-resistant 600D TXP™ and 2000D ballistic nylon

HIGHLIGHTS OF THE DRYZONE™ SERIES

A patented, hi-tech, fully watertight TIZIP™ EasySeal zipper and sealed seams protect equipment, even during complete immersion.

The fully adjustable, ergonomic harness is made for comfort, with lumbar support; adjustable CollarCut™ straps, waistbelt, DryFlo™ mesh-covered padding and load adjustment straps. (DryZone™ 200 only)

The DryZone™ 200 has six attachment loops on the waistbelt (and two on the backpack); take your choice of optional SlipLock™ add-ons.

In less extreme conditions, you can fasten the inner zipper and the top clip, and leave the waterproof zipper open for faster access to gear.

The tuck-away tripod holder keeps your tripod upright for optimum balance.

You can arrange the interior of the backpack for a DSLR kit or pro video system.
