### OVERVIEW

A great new backpack designed specifically for digital photographers on the go. The new CompuTrekker AW is the perfect travel companion for photojournalists and location photographers who need a compact way to safely store and transport digital cameras, accessories and a notebook computer. The backpack's reinforced construction, shock-absorbing closed-cell foam padding and tough, water-resistant outer fabric protects its contents from moisture and sudden impacts while offering photographers balanced comfort and hands-free access to their equipment.

### FEATURE/BENEFITS

- Padded camera compartment with adjustable, padded dividers allow photographers to customize the compartment based on their selection of equipment.
- Adjustable backpack harness with padded, contoured shoulder straps, quick-release sternum strap and waistbelt for ultimate comfort, especially in rough terrain.
- Padded notebook compartment with zipper and quick-release buckle for added safety and security.
- A quick-access hide-away Tripod Mount™, SlipLock™ attachment loops and a number of laminated and zippered organizer pockets all work to provide photographers with the fastest access to equipment while providing the very best in protection, durability and security.
- A built-in All Weather Cover™ offers maximum protection again extreme weather, dust and sand.
